Type of livestock/animals kept on property: _____

Number of livestock/animals kept on property: _____

The number or animals kept on any premises shall not exceed the number authorized by the Dedham Board of Health.

Explain manure, animal feed, and pest/nuisance management plans:

Distance from any watercourses or wetlands: _____ ft.

Distance from any drains or sanitary systems: _____ ft.

Each application shall be accompanied with a set of plans showing the property keeping domestic animals, lot lines, location of the stable, barn or other shelter, location of any watercourses or wetlands, location of all drains and sanitary systems, and location of all adjacent dwellings.

The owners of any premises on which any domestic animal requiring a permit shall be responsible for the sanitary, humane, and safe keeping of such animals. Facilities shall be kept clean and free of dirt, decaying food, manure and stagnant water. Buildings and pens shall be adequately heated and shall be whitewashed or disinfected if ordered by the Dedham Board of Health with regular spraying and baiting to prevent insects and rodents from becoming a health hazard.

*By signing you are confirming that you have read and understand the Town of Dedham regulations pertaining to Keeping Domestic Animals. You also agree to abide by these regulations set forth by the Town of Dedham Board of Health. **If your property is in non-compliance of these regulations, you may have your permit suspended indefinitely.***
