Agenda Item # 1 –: TCR #2021-005 Curve Street (Maverick St to Washington St)
Mr. Bethoney explained as of this evening the Fire Chief is still taking the Speed Cushions that were placed on Maverick street under advisement. The reason for this is because this is the first time speed cushions have been installed on a road way and part of the process was to have Chief review the response time, and damage to emergency vehicles. It would be Mr. Bethoneys suggestion that we wait until we receive an update from the Chief in a couple of weeks of what he determines on whether the speed cushions can or can not be used for speed mitigation.

Mr. Bethoney asked if there was anyone who would like to comment. The Chair recognized Mrs. Sullivan who suggested that while we wait for the determination from the Fire Chief that we look to see what other tools we may have available. The Chair recognizes from the public Mrs. Burns. Mrs. Burns also agreed that waiting to hear from the Fire Chief was a good idea and thanked the board for there efforts.

Mrs. Sullivan made a motion to table TCR #2021-005 Curve Street (Maverick St to Washington St) and it was seconded by Mr. Kelliher
