

COMMUNITY MEETING: 10/7

Help redesign East Dedham Square

Streets • Sidewalks • Crosswalks • Public spaces • Benches
Landscaping • On-Street Parking • Pedestrian connections

Fifty years ago, “urban renewal” razed this historic mill village and redesigned the streets for automobile traffic. Those changes benefited motorists, but what about when people are not in cars?

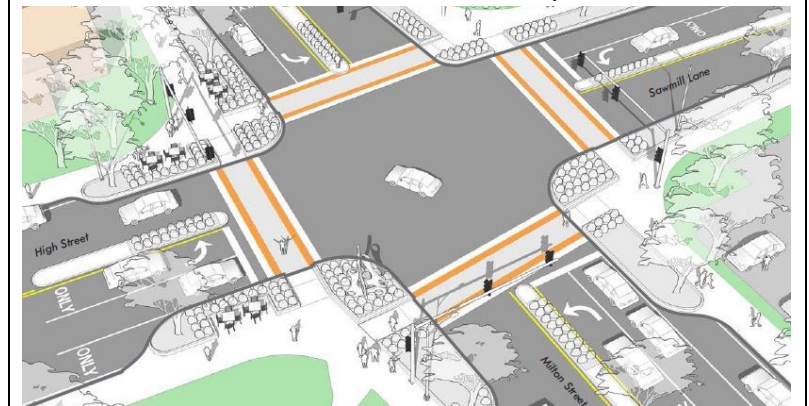

East Dedham Square’s streets and sidewalks could function better for everyone—whether they’re walking, running, biking, driving, shopping, or just hanging out. You can help make that happen!

Let’s get started:

1. **Join the community discussion**
10 a.m. Saturday, Oct. 7,
at the Mother Brook Arts &
Community Center, 123 High St.
2. **Contribute your ideas** about how
the streetscape of East Dedham
Square could work better.

What if this intersection
functioned more like this?

Open to all: schoolchildren, teenagers, families, and seniors.

10 a.m. to noon, Saturday, October 7.

Motherbrook Arts & Community Center, 123 High St.

Project overview: Over the next six months, the Town will study and recommend design improvements to the public spaces in and around East Dedham Square. To learn more, contact John Sisson, economic development director, (781) 751-9175, jsisson@dedham-ma.gov.
